

Amber's ambition gets green light

THE Sunshine Coast business community turned out in force on Wednesday night to help celebrate the arrival of one of the region's youngest, most glamorous and definitely most ambitious business owners into the fold.

The champagne flowed, and a few tears as well, as Amber Werchon Property was launched at the Plus Lime bar and bistro just down the road from the company's office opposite the Alex Headland Surf Club.

Amber, who bought her first investment property at age 16 before joining the industry the following year, said she had been planning to go out on her own for several years.

"I actually bought the office six years ago, and had planned to open my own agency four years ago," she said.

The office was previously owned by the late Rosemary Woolley who ran Pres Realty.

Now that she had taken the leap, Amber admitted more offices on the Coast were on the drawing board.

As well as its sales division, the agency has a property management section and Amber used the launch to unveil the latest division, Amber Werchon Finance.

She also thanked the many people who had helped in her short but illustrious career which has seen her collect an unprecedented three consecutive Real Estate Institute of Queensland Salesperson of the Year awards.

But the biggest and most heartfelt thanks was for her mum Julie who Amber said had always been her inspiration.

Considering the phenomenal success Amber has enjoyed to date, don't be surprised by anything this young go-getter achieves in years to come.

Official business launch is just a taste of things to come for property high-flyer
